ABOUT TWINCON

TWINCON ENTERPRISES LTD. specializes in civil earthworks, excavation, and rock breaking, drilling, and blasting, and subdivision development. TwinCon holds itself to the highest standards in both the quality of work produced for its clients and the community and the maintenance of a safe and healthy work environment for its employees on all job sites. We are one of the fastest growing companies in the South Okanagan, offering 15 years of experience and an extensive inventory of heavy equipment to match both large and small contracts. We are proud of our professional reputation for high quality work and safety orientation.

TWINCON ENTERPRISES LTD. is committed to providing an exceptional place of work for our employees. We believe that you should enjoy where you work and feel as though you have purpose and direction. We offer a full benefits package and encourage the growth and development of our staff. We are looking for an experienced individual to join our team as **Senior Project Manager & Estimator** to oversee operations in the Kelowna/ Vernon. area. This position is an exciting opportunity for someone with a strong background in the civil construction industry to help a growing organization thrive.

As our new **Senior Project Manager & Estimator**, you will report to the Management Team and be responsible for managing multiple projects from bid through to completion and preparing estimates. You will be responsible to plan, oversee, execute and complete projects. The projects you will be working on will span public and private work in the civil construction field including, but not limited to underground utility work, mass grading and earthwork, clearing and grubbing, and asphalt paving. The position requires a strong understanding of civil site design and development with previous experience working with water, sewer, and storm drainage infrastructure design projects.

Responsibilities:

- Provide leadership to ensure projects are completed on time and within budget.
- Collaborate with various stakeholders and clients to determine the specifications of each project and ensure they are satisfied with the project's progress and completion.
- Prepare, submit, and deliver construction proposals, tenders, and estimates based on required specifications and budget restrictions.
- Arrange material procurement and logistics, price of extras/additional work.
- Manage and monitor project contracts, budgets, quality control, and job costing.
- Create procedural standards to increase efficiency and effectiveness of the project management process.
- Review the project plan and project progress at regular intervals to identify any issues that may need to be addressed.
- Oversee and monitor the project's schedule to ensure it is being followed.
- Plan the sequence of work for the creation of effective project schedules.
- Communicate with Superintendents to ensure projects are completed according to the contract.
- Manage the issuance of purchase orders, contracts, schedules, change orders, and extra work.
- Handle project takeoffs, document project completion progress and complete project closeout.
- Liaise with clients and general contractors.

Senior Project Manager & Estimator

Civil Construction Experience Required

Kelowna/Vernon

Qualifications:

- 3+ years Project Management experience in the Civil Construction industry with estimating experience and a proven track record of successful outcomes.
- The ideal candidate will have experience in both Project Management and estimating.
- A relevant technical diploma or equivalent experience with a demonstrated ability to manage and deliver projects independently (a degree in Construction Management or Civil Engineering would be considered an asset).

Required Skills:

- Proven negotiation skill set with capability to envision win-win strategies.
- Ability to manage multiple projects simultaneously on time and within budget.
- Thorough attention to detail to perform in a high-pressure environment with high accuracy.
- Exceptional interpersonal and communication skills to foster strong relationships with management, employees, site superintendents, as well as clients and general contractors.
- Proficient use of computer applications (experience with any of the following programs would be considered an asset: CAS, Trimble, HeavyBid, Bluebeam, or similar).
- Highly organized self-starter; able to handle and be accountable to multiple priorities.
- Good teamwork and people skills; the ability to make a great impression.
- Understanding of MMCD, and standard specifications with a thorough grasp of drawings and review.
- Comprehensive understanding of reviewing and executing contracts with the ability to price projects.
- Strategic approach to building procedures with the ability to see the bigger picture and work towards organizational goals.
